I am a Javascript developer based in Berlin with a Computer Science background. I love turning complex problems into simple solutions. I believe in programming in a creative fashion. I have had the chance to work on a blend of FrontEnd and BackEnd JavaScript based technologies. It has helped me see the bigger picture and to relate the overall goals of the product.

SKILLS

Languages

typescript javascript (es5 & es6)
c#

Frameworks

react nodejs redux sass
angular4 loopback bootstrap

Testing

jest mocha cypress

Tools

aws docker webpack gulp
vscode github k6 chrome
bitbucket

Database

mongodb sql
